

SREEJITH S

Data Analyst

Pechchiparai, Kanyakumari, Tamil Nadu | 9629256218 | sreejiths6218@gmail.com | linkedin.com/in/sreejiths-2003s | github.com/Sreejith-03

SUMMARY

Detail-oriented Data Analyst with hands-on experience gathering, cleansing, and analyzing large datasets to produce actionable business insights. Skilled in Python, SQL, and Excel, with a strong foundation in statistics, data visualization, and dashboard development. Experienced in identifying trends and patterns in complex data, coordinating with cross-functional teams to align on business priorities, and communicating findings clearly to both technical and non-technical audiences. Proven track record of improving reporting efficiency and forecast accuracy through process automation and predictive modeling.

TECHNICAL SKILLS

Languages & Query Tools: Python, SQL

Data Analysis & Visualization: Excel, Pandas, NumPy, Matplotlib, Seaborn, Data Dashboards, Statistical Analysis

Machine Learning / AI: Scikit-learn, TensorFlow, Keras, Predictive Modeling, NLP, Deep Learning

Tools & Platforms: VS Code, Jupyter Notebook, Valentina Studio

Core Competencies: Data Cleansing, Trend & Pattern Analysis, Data Requirements Gathering, Process Improvement, Report Preparation, Cross-Functional Collaboration

EXPERIENCE

Data Science Intern

Jul 2023 – Aug 2023

Shristi Innovative Solutions

Trivandrum, Kerala

- Gathered, cleansed, and analyzed 50,000+ data records using Python and SQL to identify trends and produce actionable business insights for client reporting.
- Built and validated machine learning models that improved forecast accuracy by 18%, supporting more reliable business trend prediction.
- Developed interactive data visualizations and charts using Matplotlib and Seaborn to support decision-making, reducing report preparation time by 30%.
- Coordinated with team leads to align analysis with business priorities and translate findings into clear, non-technical summaries.

Android Developer Intern

Dec 2024

Shrishti Innovative Solutions

Trivandrum, Kerala

- Developed and deployed 3+ new app features using Flutter and Dart, increasing user engagement by 20%.
- Debugged and optimized legacy code, improving load times by 35% and reducing crashes by 15%.
- Partnered with designers on usability testing, achieving a 95% user satisfaction rate.

PROJECT

Traffic Sign Recognition for Autonomous Vehicles

Jan 2025

Python, Jupyter Notebook

- Built a CNN-based deep learning model achieving 96% classification accuracy on the German Traffic Sign dataset.
- Integrated OpenCV-based real-time detection, processing live camera feed data in under 0.8 seconds per frame.
- Applied data preprocessing and pattern recognition techniques to enhance model reliability and support road safety outcomes.

CERTIFICATIONS

Diploma in Data Science

Feb 2025 – Aug 2025

Neural Nest

Trivandrum, Kerala

- Completed 120+ hours of applied training in Python, SQL, Pandas, NumPy, statistical analysis, Machine Learning, Deep Learning (CNN, RNN), and NLP.
- Worked across 8+ real-world datasets performing data preprocessing, feature engineering, and predictive modeling.

Generative AI — ChatGPT for Everyone

Nov – Dec 2024

GUVI (HCL Google for Education partner)

- Gained foundational knowledge in applying ChatGPT for productivity, learning, and creative tasks.

EDUCATION

Bachelor of Computer Science and Engineering

Oct 2021 – May 2025

Ponjesly College of Engineering

Nagercoil, Tamil Nadu

Relevant coursework: Data Science, Data Analysis, Data Visualization, Machine Learning, Deep Learning, NLP, Python
